DETAILED ACTION

Claims 1-11, 15 and 16 are under consideration in this application.

Claims 12-14 and 17 are held withdrawn from consideration as being drawn to nonelected subject matter. 37 CFR 1.142(b).

Election/Restrictions

Applicant's election with traverse of Group II in the reply filed on November 4, 2005 is acknowledged. The traversal is on the ground(s) that the compounds have a significant structural feature, i.e. a pyridine. This is not found persuasive because for the reasons clearly set forth in the record. Note the definition of A¹ in WO 01/11966, especially example 40 therein. Applicants have failed to advance any cogent reasons as to why the inventions have unity of invention.

The requirement is still deemed sound and proper and is therefore maintained.

This application has been examined to the extent readable on the elected isoquinolines.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1, 11 and 15 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The plural 's' on "salts" makes claims 1 read on mixtures rather than specific compounds.

The term suitable in claims 1 and 11 is indefinite to its meaning. How is suitability determined?

Art Unit: 1625

The expression "or a composition" in claim 15 is indefinite because it suggests the present of additional active ingredients.

Specification

This application does not contain an abstract of the disclosure as required by 37 CFR 1.72(b). An abstract on a separate sheet is required.

Allowable Subject Matter

Claim 1 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and if rewritten directed solely to the elected isoquinolines.

Claims 11 and 15 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims and if rewritten directed solely to the elected isoquinolines.

Claims 2-10 and 16 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims and if rewritten directed solely to the elected compounds.
